

# How to Make a Rain Cloud

## Materials:

- Clear jar
- Tap water
- Shaving cream
- Blue food coloring

## Instructions:

1. Fill your jar about 3/4 full of water from the tap.
2. Use the shaving cream to create a cloud on top of the water.
3. Let the foam settle a bit. Now drop food coloring into the 'cloud'.
4. The food coloring will fall down into the water creating a rain-like effect.
