

# How to Make Slime

## Materials:

- Ziplock bags
- Elmer's liquid glue (white or clear PVA)
- Liquid starch
- Water
- Food coloring
- Plastic cups
- Popsicle sticks/stir sticks (Something to stir with)

## Instructions:

1. Mix equal parts of glue and water in a cup and stir together (about a quarter cup of each).
2. Then mix in a few drops of food coloring.
3. Mix in the liquid starch. About an 1/8 to 1/4 cup (depending on the consistency you want) .
4. Time to knead and play with the slime! Make sure it is all well combined! \*Warning\* the food color may stain clothes.
5. Put slime in a plastic bag to store.
