

We have a new website!

The new site has only been live for a short time and it may take some time before we can work through any broken links, misdirected pages, etc. If you encounter any missing/broken links, trouble navigating, or, horrors, a typo, please let us know so we can address the issue.

Basic navigation on new website:

Discover menu: Features basic Girl Scout information, events and activities, and our local council (contact info, staff listing, property info, jobs, board, and shop information).

Get Involved menu: Features information on how to join, volunteer and connect – become a Girl Scout, become a volunteer, become a Lifetime member and connect with the alum network.

Events and activities menu: Features all the tools for finding scheduled events (search and calendar) as well as learn about all types of Girl Scout experiences and activities – including, but not limited to camp, highest awards, badges, Journeys, patch programs, STEAM Center, travel, and horses, as well as information about our properties and planning a visit to a property.

Members menu: Features information specific to girls, volunteers and other adults already involved as members. Sections include information for Girl Scouts and families, for volunteers and for everyone, with links to group-specific information (such as volunteer tools), as well as links to other program and resource information.

Support Us menu: Features a secure online giving form as well as information on all types of support from annual giving to planned giving, event sponsorship to monthly giving. This section also has information about alum support.

Cookies+ menu: This section will feature pages related to Fall Product and Cookies programs, with resources for both the general public and members. Some pages may be seasonal and will not always be live.

Note: we are not able to address any issues with gsEvents, myGS, VTK or registration. If you encounter problems in those areas of the website, please email info@girlscoutsdiamonds.org.
